SMART GREEN DESIGNER WANTED!

We're looking to add a part-time team member to the Vereco Smart Green Homes Ltd. organization who has a great eye for design and wants to collaborate with a team focused on climate change adaptation and mitigation, improving our environment, and respecting Mother Earth.

As the ideal candidate, you will:

- have an Architectural Design Diploma or Certification;
- have a thorough understanding of residential and commercial design and construction, including the NBC 2015 and local construction bylaws;
- be highly proficient in design software (working knowledge in one or more of: Revit, Archicad, Google Sketchup, Google Layout, AutoCAD, etc);
- have the ability to independently produce floor plans, construction details, construction specifications, construction drawings, and conceptual renderings;
- have an understanding of high performance building methods;
- be keen on integrating mindful materials into your designs;
- attend client meetings when needed (currently these are often virtual);
- communicate with team members and clients regularly to refine designs;
- have some experience with preparing cost estimates for your designs;
- be able to problem-solve and suggest innovative solutions to design challenges.

This position will collaborate with our Lead Designer and the rest of the team to design high performance homes and buildings.

Experience in industry is preferred, but new graduates with proficiency in the items listed above are welcome to apply.

We offer flexible part-time work hours, the option to work from home (out-of-province candidates (within Canada) may also be considered).

This position will be eligible for our company bonus structure, and will give you the opportunity to join a 100% Indigenous-owned Saskatchewan company working hard to keep our planet a "Smart Green" place to live, work, and play.

JOIN THE VERECO SMART GREEN TEAM!

PLEASE SEND YOUR RESUME AND A COVER LETTER TO VERECOADMIN@VERECO.CA
